Postgraduate Degree in User Experience – Anhembi Morumbi University

LANGUAGE

English – Advanced
Portuguese – Native

PROFESSIONAL EXPERIENCE

Accenture Brasil
Frontend Development Specialist
Feb 2022 – Present

- Lead a development team, defining estimations, ensuring code quality, and managing direct communication with clients to resolve issues.

- Provide mentorship to the team and collaborate with UX and back-end teams to deliver complete and efficient solutions.
- Develop complex features for real estate finance platforms using Angular 17+ and integrations with REST APIs and GraphQL.

Key achievements:
Delivered large-scale, high-complexity applications for the financial sector, including platforms for open finance and new mortgage loan acquisition.

Accenture Brasil
Senior Frontend Developer
Jun 2020 – Feb 2022
- Developed responsive websites using Angular 8+, HTML5, CSS3, Bootstrap, Grid, and Flexbox.
- Provided support for legacy systems in Angular 2.
- Upgraded framework versions, implemented robust unit tests, and supported production platforms.
- Conducted code reviews and mentored junior developers.

Key achievements:
Delivered self-service applications for customers with real estate contracts, reducing call center demand.

Accenture Brasil
Mid-Level Frontend Developer
Mar 2019 – Jun 2020
- Developed web applications for the financial sector, focusing on contract management and back-office solutions.
- Utilized Angular 6/7, ES6, GraphQL, and NgRx to build scalable and robust applications.

Accenture Brasil
Junior Frontend Developer
Apr 2018 – Mar 2019
- Developed web applications using TypeScript and Angular 6/7, focusing on dynamic and functional interfaces.
